❖ 2021 Catalogue ❖

Dear Canada West Customers

We are proud to introduce our 2021 product line.

This year's collection features 32 new styles across all of our product categories. New developments for this year include three new patterns featured in our WM Moorby category. They are a new Chukka Boot pattern in styles 2846 and 2847, a new 6" lace pattern in styles 2848 and 2849, and our Postman Shoe style 2843. Other new developments for 2021 are a genuine plantation crepe sole designed for the roofing industry (14383), a new Caulk Boot design that utilizes our double vamp 734 pattern (14435) and five new leather colours used throughout the line.

We at Canada West Shoe, would like to thank our network of dealers who have continued to stock and display our products over the past 42 years. Many of these retailers are owner operated or family run businesses that have been mainstays in their communities for years. Retailers like these, that are based on quality and service, are the reason we are able to produce footwear here in Canada and keep our family business going.

On behalf of the over 50 employees and staff here at Canada West Shoe, thank you for putting your trust in our products and for supporting Canadian manufacturing.

Sincerely,
Graham Moorby

Ted Moorby, Director
Graham Moorby, President

Men's and Ladies' BRAHMA® Comfort Insoles

Canada West Boot Jack

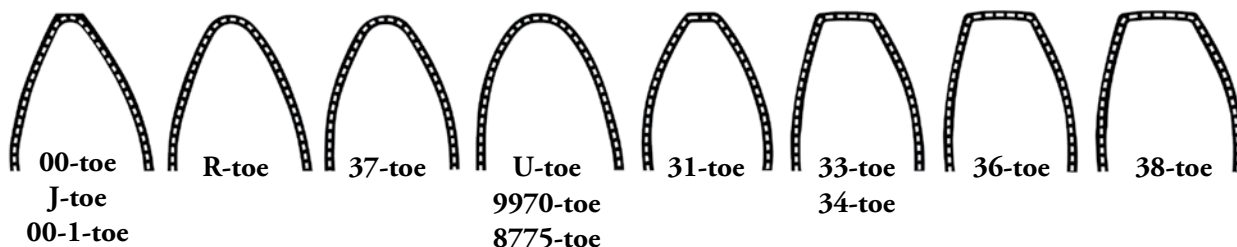

Brahma Boot Jack

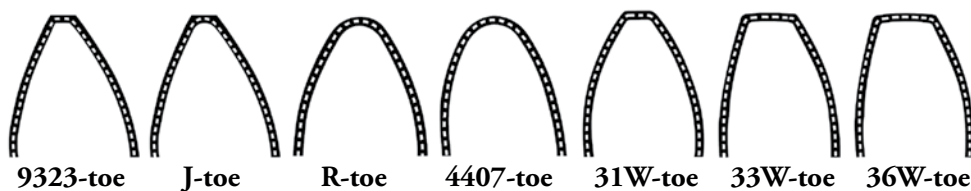

Brahma Comfort Insoles are made from 100% full memory Polyurethane foam and finished with a Brushed Poly top layer. The Polyurethane foam absorbs impact, and the Brushed Poly wicks moisture away from your feet. Together they make your feet feel better.
